

LGBTQ Youth & Families Support Group

The Family Partnership
Counseling Education Advocacy

The LGBTQ (Lesbian, Gay, Bisexual, Transgender, and Queer) Youth & Families Support Group is a confidential and safe group that will provide support, resources and education on numerous topics such as LGBTQ history, healthy relationships, coming out, bullying, and others. We want to provide an opportunity for youth and their family members to learn more about relevant topics and to talk about their own related family experiences. There is a \$25 registration fee per youth. *Note: Youths and their family members (parents/guardians/caretakers) must participate. They will meet together for the first half and separately for the second half of the session.
