

# Join us for a discussion about your health care experience and your opinion about health!

Are you a ...

- Living with a mental illness or other serious chronic health condition?
- Uninsured or covered under Medicare or Medicaid?
- Part of the LGBT community?

If so, we'd love to have you join us for a group discussion about your experience/opinions about your health care. You will receive a **\$20 gift card for your participation** in a 1 hour and 45 minute focus group. Questions will elicit information on your experiences with health, mental health, and wellness care, barriers encountered, cultural/spiritual health needs and practices, and your perceptions/opinions of how mental health, health care and your health could be improved. Your input will be used in planning a new medical model called Health Homes.

Please contact me with ANY  
questions!!
